# SMARTBRIDGE

**Date:** 15 March 2026 **Team ID:** XXXXXX **Project Name:** PocketSmart AI: Your Smart Budget & Recommendation Assistant **Maximum Marks:** 1 Mark

## Project Demo Planning

### SKILL WALLET - A SmartBridge Product

#### Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

#### Demo Section Details:

| S.No | Demo Section                           | Description                                                                                                  | Duration (mins) | Responsible Member |
|------|----------------------------------------|--------------------------------------------------------------------------------------------------------------|-----------------|--------------------|
| 1    | Project Overview & System Architecture | Highlighting GenAI budget allocation, Flask backend, and Gemini 1.5 Flash Pro architecture.                  | 2               | Member 1           |
| 2    | User Authentication & Dashboard        | Demo of User Registration, Login flow, JWT token handling, and main navigation dashboard.                    | 1               | Member 2           |
| 3    | Home Interior Budget Planner Demo      | Demonstrating budget inputs, room selection, cost distribution, and e-commerce product links (IKEA, Amazon). | 3               | Member 3           |
| 4    | AI-Based Party Planner Demo            | Showcasing budget allocation across catering,                                                                | 3               | Member 4           |

| S.No | Demo Section                     | Description                                                                                                              | Duration (mins) | Responsible Member |
|------|----------------------------------|--------------------------------------------------------------------------------------------------------------------------|-----------------|--------------------|
|      |                                  | decoration, venue, and service sourcing (Swiggy, Zomato, OYO).                                                           |                 |                    |
| 5    | Jewelry Budget Planner Demo      | Demonstrating multimodal outfit image upload, style matching, and jewelry platform recommendations (Tanishq, CaratLane). | 3               | Member 1           |
| 6    | Recommendation History & Wrap-up | Displaying saved session history, backend storage, and concluding Q&A.                                                   | 3               | All Team Members   |

### Demo Flow Summary:

| Step | Activity                                    | Notes                                                                                              |
|------|---------------------------------------------|----------------------------------------------------------------------------------------------------|
| 1    | <b>Introduction &amp; Problem Statement</b> | Overview of managing multi-category budgets and introducing PocketSmart AI.                        |
| 2    | <b>Solution Overview</b>                    | Explaining Gemini 1.5 Flash Pro integration with Flask/FastAPI backend & multimodal capabilities.  |
| 3    | <b>Live Feature Demonstration</b>           | Live walk-through of Home, Party, and Jewelry Planners with real budget inputs and image analysis. |
| 4    | <b>Q&amp;A Session</b>                      | Addressing queries regarding prompt tuning, budget constraint algorithms, and future scope.        |
